COMPANY PROFILE

Empowering Innovation with High-Quality Chemical Solutions

www.nipachemicals.com

WELCOME TO SRL NIPA CHEMICALS

We are leading suppliers of high-quality chemicals for a wide range of industries. At NIPA Chemicals, we are dedicated to providing exceptional service, quality products, and expert technical support to help our customers succeed.

Our commitment to innovation and sustainability drives us to continuously improve our products and processes, and we pride ourselves on our ability to offer customized solutions that meet the unique needs of our customers.

ABOUT US

Overview

NIPA Chemicals is a leading chemical distribution company based in Belgium. We specialize in the sourcing, distribution, and supply of high-quality chemical products for a wide range of industries, including agriculture, cosmetics, pharmaceuticals, and more.

At NIPA Chemicals, we are committed to providing our customers with exceptional service, quality products, and expert technical support. We work closely with our suppliers to ensure that we offer the latest innovations and most sustainable solutions to our customers. We also maintain strict quality control measures throughout our supply chain to ensure the highest standards of safety and environmental responsibility.

Our team of experts has extensive knowledge of the chemical industry and is always available to offer technical support, guidance on product selection, and assistance with logistics and delivery. We strive to build long-term partnerships with our customers, working closely with them to develop customized solutions that meet their specific needs.

OUR CAPABILITIES

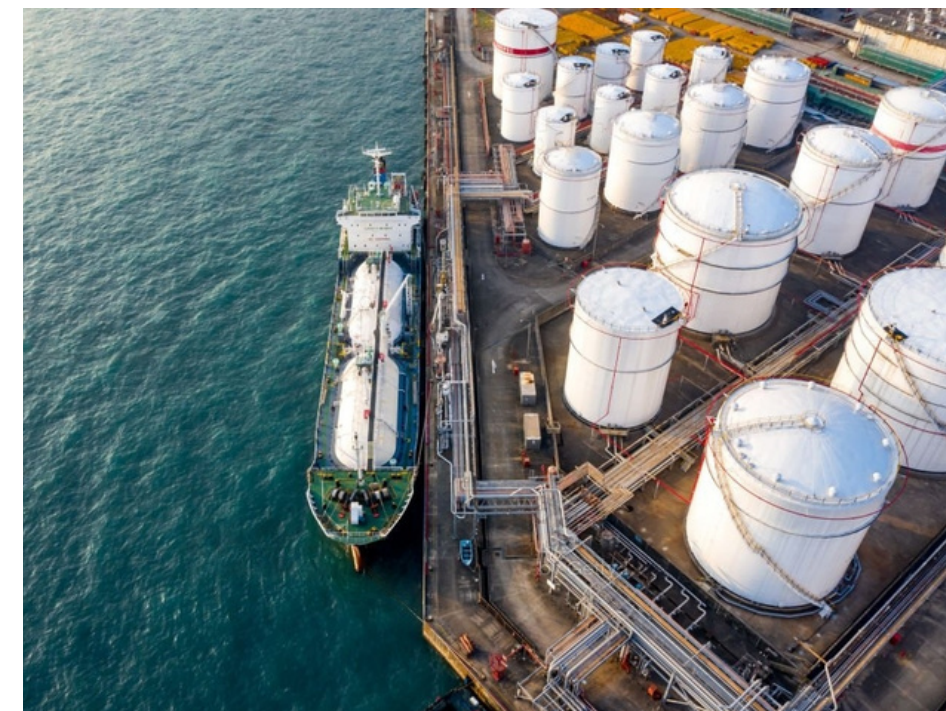

DIRECT IMPORT SHIPMENTS

NIPA Chem maintains close relationships with foreign producers in South Africa, Belgium, China, Mexico, India, and many other nations. We take great pride in finding the best manufacturers in each nation and only offering the best goods. If you purchase import materials from NIPA Chem, you can rest easy knowing that the manufacturer has been thoroughly investigated and tested to ensure that the product is consistent from one order to the next. We don't compare prices order by order to find the best deal. We prioritize offering dependable, high-quality products to our customers.

CHEMICAL STORAGE WAREHOUSING

NIPA Chemicals operates warehouses in Belgium and South Africa. Many of the same chemicals that we distribute most frequently are present in our warehouses. This enables us to provide our customers with a wide range of quantities and lead times. Containers can be imported directly to a customer's door. All importers eventually experience delays with their containers when bringing in goods. Whereas most distributors would leave their customers in a bind, we are able to provide goods while imports are delayed thanks to our warehouse inventory. This reduces the amount of time our customers are without stock.

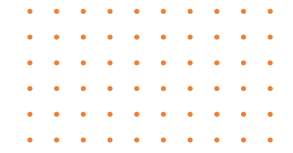

BULK CHEMICAL SERVICES

Using its Charter of Affreightment contracts with bulk chemical shippers, NIPA Chemicals is able to import liquid chemicals in bulk thanks to its long-standing relationships with numerous manufacturers. At bulk liquid chemical terminals in Antwerp, Belgium, NIPA Chemicals stores the chemicals before distributing them to customers around the world. Customers are able to do this to lower the amount of inventory they have on hand at their locations, freeing up funds for other business needs.

OUR VISION

We work hard to be a leader in the world when it comes to offering our clients cutting-edge, environmentally friendly chemical solutions. We work hard to be a business that not only meets but also exceeds the expectations of our stakeholders, employees, and customers.

By providing the best products, top-notch service, and technical know-how, we hope to establish lasting relationships with our clients. To meet the evolving needs of our customers and the global community, we are dedicated to innovation and sustainability and work to continuously improve our products and procedures.

OUR MISSION

01.

We provide a wide range of chemical products, knowledgeable technical support, and specialized solutions in an effort to be a dependable and trusted partner for our clients. We're committed to working with our clients to comprehend their particular challenges and create solutions that are tailored to their needs.

02.

We also think that doing business should be done with the highest levels of ethics and integrity. We are dedicated to treating all of our stakeholders fairly and with respect, and we work hard to be a company that has a positive influence on the communities we serve.

03.

In addition to promoting security, sustainability, and moral business conduct, we want to offer our clients high-quality chemical solutions that address their needs.

QUALITY MANAGEMENT

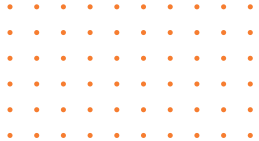

Quality management is essential for us to ensure that our products and services meet the needs and expectations of our customers, while also adhering to regulatory requirements and maintaining a safe and sustainable supply chain.

At NIPA Chemicals, we have established a comprehensive quality management system that includes the following key elements:

1. Quality Control: We conduct rigorous quality control testing on all of our chemical products to ensure that they meet the required specifications and standards.
2. Regulatory Compliance: We maintain compliance with all relevant regulatory requirements, including safety, environmental, and health regulations.
3. Supplier Management: We carefully vet and manage our suppliers to ensure that they meet our quality and safety standards, as well as ethical and environmental requirements.
4. Risk Management: We identify and manage potential risks throughout our supply chain, including transportation, storage, and handling of chemicals.
5. Continuous Improvement: We strive to continuously improve our quality management system by setting goals, measuring performance, and implementing corrective actions.
6. Customer Satisfaction: We focus on meeting and exceeding the expectations of our customers by providing high-quality products, timely delivery, and excellent customer service.

INDUSTRIES WE SERVE

Agriculture and Feed Chemicals

This industry produces chemicals such as fertilizers, pesticides, and animal feed additives to support the agriculture and animal feed industries.

Bulk Chemicals

This industry produces large quantities of chemicals used in a variety of applications, including cleaning, water treatment, and textiles.
